

SATYAM AUTO COMPONENTS Ltd

Satyam auto components was set up in 2001 as an integrated sheet metal plant. It has complete facilities for blanking, drawing, trimming and welded assemblies and welded chassis. It is supplying basically to automotive OEMs.

The products include motorcycle fuel tanks, tubular frames, front and rear mudguards etc. There are 6 presses in 350-500 ton range from Aida, Japan and Taiwan.

Address

26 C, Sector - 3

IMT Manesar

Haryana

Sales Turnover(05-06) – Rs 151 Cr
(€ 28 million)

Manpower – 400

Products

Sheet metal stampings, tubings, welded and assembled components used in motorcycles

- Fuel tank
- Tubular Frames
- Front mudguard
- Rear mudguard

Customers

- Hero Honda

Certifications

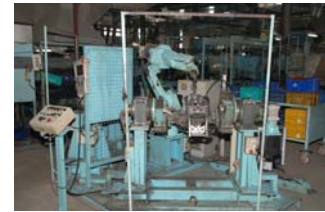

- ISO/TS 16949:2002
- ISO 14000

Facilities

- 350 T press x 2 : Fonyu, Taiwan
- 400 T press x 3 :AIDA, Fonyu
- 500 T press x 1 : AIDA

- Weld shop
- Robotic welding
- 3 axis CNC pipe bending
- Assembly line

-

Quality Control and Laboratory

- 3 D co-ordinate measuring machine
- Hardness tester
- Weld strength tester
